

Gearboxes (continued...)

At RMR your gearbox is...

- Thoroughly Inspected by qualified engineers to diagnose and identify the cause of failure.
- Upon inspection, RMR will notify you of the condition of bearings and gears and get approval for any necessary repairs. (Inspections include a complete disassembly and cleaning of parts.)
- Overhauled with state-of-the-art equipment, using the highest quality materials
- Reassembled and the shaft will be set to O.E.M. specifications.
- Tested to conform to your specifications
- Returned to you on time and on budget

The RMR Advantage

- *Total replacement of gearing, bearings and seals for all major brands*
- *Overhaul or repair of any manufacturer's gearbox*
- *Foreign and Domestic*
- *Free Pickup and Delivery*
